

Screen 1: Scenario Context / Orientation

Visual layout and UI elements:

Large, high-contrast text on a warm wooden background ("Welcome! Let's warm up your memory for today.") Audio voiceover speaks slowly. A giant "Start" button pulses gently.

User Interaction:

User points the Quest controller or uses hand tracking to tap the "Start" button.

State Transition:

Transitions to Screen 2 on button click.

Screen 2: Tutorial, Watch and Learn

Visual layout and UI elements:

A friendly virtual guide appears. Three large glowing colored orbs (Red, Blue, Yellow) float at comfortable chest height. Text: "Watch the Pattern Carefully"

User Interaction:

User watches as the orbs light up in a simple 2-step sequence (e.g. Red → Blue) with soft chimes.

State Transition:

Auto-advances to screen 3 once the demonstration ends.

Screen 3: Your Turn: Level 1

Visual layout and UI Elements:

The same 3 glowing orbs are active. Text prompts: "Your Turn! Repeat the Pattern."

User Interaction:

User taps the orbs in the correct sequence (Red, the Blue).

State Transition:

Success: Off to screen 4

Mistake: Triggers a gentle voice ("Let's try that one more time") and repeats.

Screen 4: Routine Transition

Visual Layout and UI Elements:

The environment shifts gently into a cozy kitchen counter. Text: "Firestart Job! Now let's prep your morning tea. Remember the steps."

User Interaction:

User views 3 large item icons on the counter: Kettle, mug, teabag.

State Transition:

Auto-advances in 5-seconds, or when the user clicks "continue".

Screen 5: Recipe Sequence: Watch

Visual Layout and UI Elements:

The three kitchen items light up in a specific order with a distinct sound for each (e.g. Kettle → Tea bag → Mug)

User Interaction:

Watches the 3-step sequence

State Transition:

Auto-advances to screen 6

Screen 6: Recipe Sequence: Your Turn

Visual Layout and UI Elements:

Text prompt: "Tap the items in the order you saw." The items remain large and high-contrast.

User Interaction:

User taps the Kettle, Tea bag, mug in the correct sequence.

State Transition:

Success: Goes to Screen 7

Mistake: Gentle audio cue ("Almost!") and a demonstration re-appears

Screen 7: Memory: Level 2

Visual layout and UI Elements:

The environment opens slightly. The system introduces a slightly longer 4-step sequence combining colors and sounds (e.g. Blue → Yellow → Red → Blue).

User Interaction:

User watches then repeats the 4-step sequence.

State Transition:

Success: Goes to screen 8

Mistake: Encouraging soft chime, offers a "hint" button before retrying

Screen 8: Celebration and Summary

Visual layout and UI Elements:

Confetti animation (low motion, gentle-floating bubbles) and a soft congratulatory chime. Text: "Wonderful Job keeping your memory sharp today!"

User Interaction:

User views their accomplishment summary. Large "Finish" or "play again" button appears.

State Transition:

Transition to Screen 9 on button click.

Screen 9: Goodbye and Exit

Visual layout and UI Elements:

Calm landscape view. Text: "You've completed today's session. Have a wonderful day!" A button to safely exit or restart.

User Interaction:

User selects "Exit" to close the session or remove the headset.

State Transition:

Session Concludes/ Saves progress
